

Introducing StrataTech SmartQuote

Innovation powered by CHU

SmartQuote dramatically reduces the time it takes to obtain a new strata insurance quote by automating the input of vital building information from CHU's extensive database.

Key Benefits Include:

Time-Saving Automation

Automatically populates vital building data, drastically reducing the time spent on data entry, and time in sourcing the correct details from the client.

Increased Accuracy

SmartQuote functionality enhances the accuracy and reliability of the quote by minimising errors associated with manual data entry.

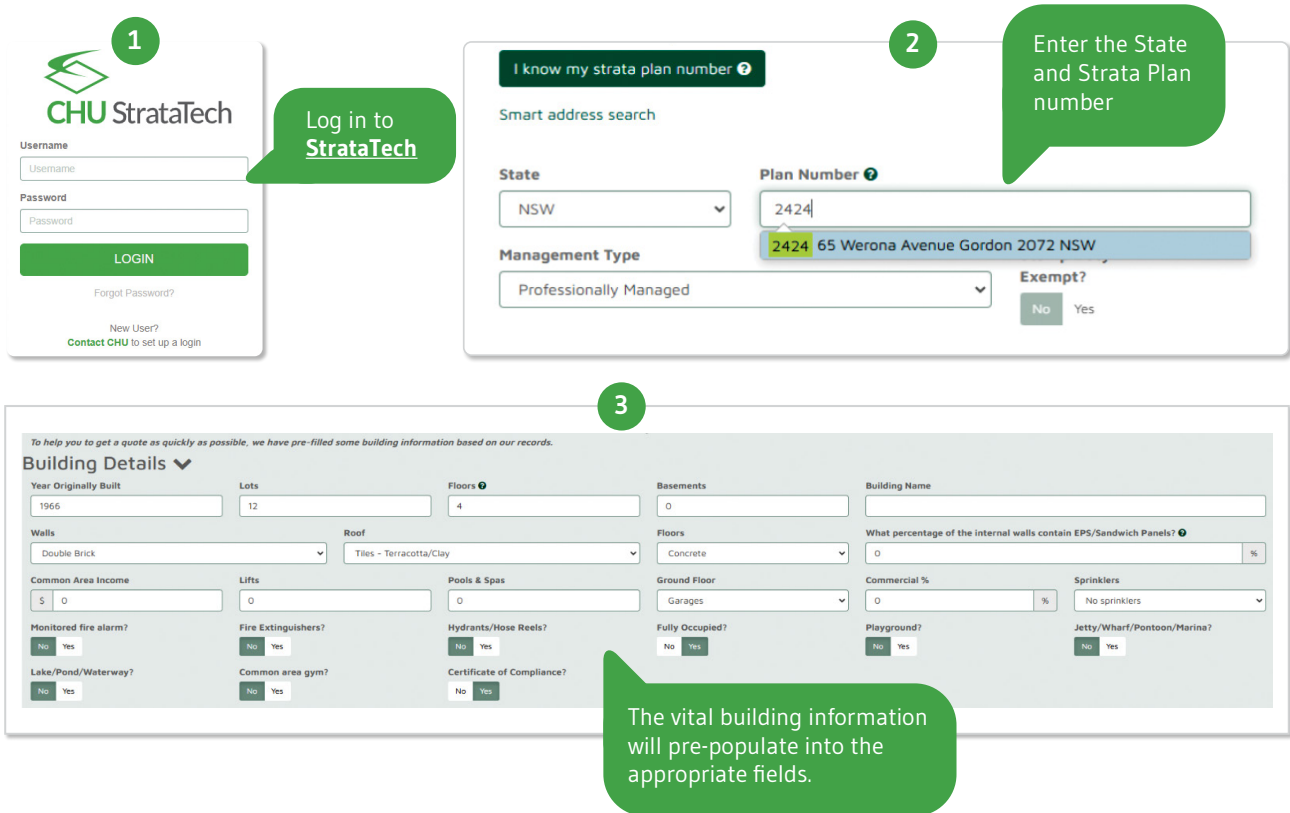

Intuitive Self-Serve Customer Experience:

Designed with our customers in mind, the interface is intuitive and easy to use, further enhancing the self-service experience in StrataTech.

SmartQuote Features:

Simply enter the strata plan number and the state, if our database has recent and accurate data, SmartQuote will automatically populate the rest of the building information. This enhancement not only improves efficiency of the quote process, it also reduces the administrative burden and minimises the risk of errors that can occur during manual data entry.

1 Log in to StrataTech

2 Enter the State and Strata Plan number

3 The vital building information will pre-populate into the appropriate fields.

“We understand the challenges customers face in managing the large volume of quotes. The new SmartQuote feature has been designed to save time and improve accuracy for Brokers and Authorised Representatives when quoting new business.”

Kimberley Jonsson, CEO of CHU.

This enhancement is part of CHU’s strategy to leverage technology in delivering market leading products and services that will benefit the whole strata community.

Brokers and Authorised Representatives are invited to learn more about this exciting enhancement to StrataTech on our website chu.com.au or by contacting CHU’s BDM Team.
