Grants

Helping your strata community go greener

CHU's Green Grant Program is offering up to \$50,000 in grants to support sustainable initiatives in residential strata buildings.

CHU Residential Strata Insurance Policy holders who have held their policy consecutively for 3+ years are eligible to apply for grants to help fund a sustainability initiative that improves your building or your strata community.

Program Overview

As Australia's leading strata specialist, we're committed to more than protection — we're investing in sustainable strata communities ensuring they continue to thrive for generations to come.

What do you get?

Our Green Grant Program is offering a grant pool of up to \$50,000 for the 2026-2027 financial year.

Funding amounts granted will vary.

Who is this for?

CHU Residential Strata Insurance Policy holders who have held their policy consecutively for 3+ years.

Applications can only be made by the Body Corporate/Strata Committee/Owner of the residential strata building. Submissions by Strata Managers, Brokers or other intermediaries will not be accepted.

What to include?

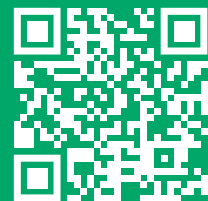

Funding is available for a broad range of initiatives that contribute to sustainability and healthier strata communities.

To be considered, your initiative must address some form of sustainability from at least one of these pillars:

- **Environmental sustainability** e.g. energy efficiency, waste reduction, water conservation
- **Social impact** e.g. community wellbeing, accessibility, safety.

Submissions must include relevant documents e.g. photos, quotes, invoices, reports.
